CISCO

Secure, Simplified, Scalable.

Powering the Modern Workplace with Cisco

Today's public sector and enterprise environments demand secure, scalable, and efficient digital services—despite tight budgets and rising cyber threats. Legacy networks often can't keep up. That's why XMA partners with Cisco to deliver intelligent, future-ready infrastructure that simplifies management, strengthens security, and supports digital experiences for citizens, students, patients, and staff alike.

The XMA Solution: Your Strategic Network Partner

As a Cisco Premier Integrator with a focus on Security, Networking and Sustainability and a Select Provider for Managed Services, we combine Cisco's world-class networking and security portfolio with our decades of experience serving the specific needs of both the UK public and private sectors. We don't just supply technology; we design, implement, manage, and optimise secure, intelligent networks that empower you to focus on your core mission: delivering exceptional outcomes.
